CONSOLIDATED RENEWAL POLICY

The AirLink Complete minimum purchase duration is one year. We understand that many customers will purchase devices on an on-going basis, and that there will be a desire to synchronize renewal periods for groups of devices to make managing devices easier.

At the renewal of your support contract, Sierra Wireless can work with you and your Partner to synchronize all device support contracts to a consistent date, and we will prorate the AirLink Complete fees (potentially for periods of less than one year) to enable all your devices to renew at the same time. The prorated rate will be based on a monthly rate, consistent with the term of your AirLink Complete contract.

If you allow support for your devices to expire and want to renew your AirLink Complete at some time in the future, you will be responsible for retroactive payment of the AirLink Complete fees.
